CAREER OBJECTIVE

A result-oriented and highly analytical Software Engineer with a solid foundation in computer science and hands-on experience in building scalable web services. Proven ability to design efficient backends, optimize database performance, and collaborate in Agile teams to deliver high-quality, user-centric software solutions.

WORK EXPERIENCE

Software Engineer

Dec 2022 – Present

Vertex Solutions Limited · Victoria Island, Lagos

- Design and implement secure RESTful APIs and payment integrations using Python and Django, enhancing transaction processing speeds by 15%.
- Optimize database queries in PostgreSQL, achieving a 25% reduction in API response latency across the Meridian web platform.
- Collaborate with product managers and frontend engineers to deploy cloud-based software architectures on AWS.
- Write comprehensive unit and integration tests, maintaining a test coverage of over 92%.

Junior Web Developer (Intern)

Jun 2020 – Sep 2020

Nexa Technologies · Yaba, Lagos

- Built and styled responsive frontend components for customer dashboards using React, HTML5, and CSS3.
- Debugged and resolved 40+ interface issues and user authentication bugs in the customer portal.

NATIONAL YOUTH SERVICE CORPS (NYSC)

IT Support & Classroom Instructor

Nov 2021 – Nov 2022

Government Secondary School · Gwagwalada, Abuja

State Code: FC/21B/4321 | Cert No: NYSC/NEX/2022/384920

- Educated over 150 senior secondary students in Computer Studies, achieving a 95% pass rate in practical examinations.
- Maintained the school's digital laboratory of 30+ workstations, achieving 100% system availability.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

2017 – 2021

University of Ibadan · Ibadan, Oyo State

Class of Degree: **Second Class Honours (Upper Division)**

- Cumulative Grade Point Average: 4.35 / 5.00
- Final Project: Developed an automated student registration and grading portal.
