

Renata Voss

SUPPLY CHAIN PLANNER

📍 Columbus, OH | 📞 (614) 555-0148 | ✉ renata.voss@nexaemail.com | 🔗 linkedin.com/in/renatavoss

PROFESSIONAL SUMMARY

Supply chain planner with 8 years of experience driving demand planning, MRP execution, and inventory optimization across industrial manufacturing and consumer goods environments. Skilled in translating S&OP forecasts into master production schedules that balance service level against carrying cost. Proven track record cutting excess inventory while lifting on-time-in-full (OTIF) performance for multi-site distribution networks.

CORE COMPETENCIES

- Demand Forecasting & S&OP Facilitation
- Master Production Scheduling (MPS)
- Material Requirements Planning (MRP)
- Safety Stock & Reorder Point Modeling
- ABC/XYZ Inventory Classification
- Supplier Collaboration & OTIF Management
- Capacity & Resource Planning
- Logistics Throughput & Distribution Flow

PROFESSIONAL EXPERIENCE

Senior Supply Chain Planner

Vertex Industrial Group — Columbus, OH

Mar 2021 – Present

- Own the demand-to-supply plan for 6 manufacturing lines and \$140M in annual throughput; run weekly MRP cycles in SAP APO covering 1,200+ SKUs.
- Redesigned safety stock parameters using ABC/XYZ segmentation, cutting excess finished-goods inventory by \$3.6M while holding OTIF at 97.8%.
- Lead monthly S&OP meetings with sales, finance, and plant operations; reconciled forecast-to-actual variance from 34% to 12% within two cycles.
- Built a Power BI control tower dashboard tracking fill rate, days of inventory outstanding (DIO), and supplier lead-time slippage across 4 distribution centers.
- Mentor two junior planners on MPS logic and exception-message triage in SAP APO.

Supply Chain Planner II

Nimbus Manufacturing Co. — Dayton, OH

Jun 2018 – Feb 2021

- Managed master production schedules for 3 injection-molding plants, converting statistical forecasts from Oracle Demantra into weekly build plans.
- Improved forecast accuracy from 68% to 90% by introducing causal-factor overrides for promotional and seasonal demand spikes.
- Partnered with 40+ suppliers on capacity commitments and expedite requests, reducing stockout incidents by 31% year-over-year.
- Automated the weekly exception report using Excel VBA, cutting planner reporting time from 6 hours to 45 minutes.

Demand Planning Analyst

Meridian Consumer Goods — Cincinnati, OH

Aug 2016 – May 2018

- Built baseline demand forecasts for a 300-SKU personal-care portfolio using JDA (Blue Yonder) statistical models.
- Supported S&OP consensus process, aligning marketing promotional calendars with production capacity constraints.
- Identified and corrected a systematic double-count in intercompany transfer orders, resolving a \$410K phantom-demand distortion.

EDUCATION & CERTIFICATIONS

B.S. in Supply Chain & Logistics Management

Apex State University — Class of 2016

Certifications

APICS CPIM (Certified in Planning and Inventory Management)
